

Benchmarking Comparison and Performance Analysis (B-CAPA)

Tailored Reports Exclusively for Members

NAACOS is pleased to provide its ACO members with a tailored Benchmarking Comparison and Performance Analysis (B-CAPA) Report. The goal of the B-CAPA Project is to provide actionable data for ACOs to evaluate their performance to comparable ACOs. The B-CAPA Report evaluates spending, utilization, and quality measures relative to various aggregate and regional “peer groups” of ACOs.

B-CAPA Reports include:

- The report contains information on your individual ACO’s 2015 performance relative to six “peer groups” of other ACOs:
 - Peer Group 1: ACOs with a similar HCC Risk Score
 - Peer Group 2: ACOs with similar proportions of aged/dual beneficiaries
 - Peer Group 3: ACOs with similar proportions of ESRD beneficiaries
 - Peer Group 4: ACOs with similar PMPY expenditures
 - Peer Group 5: ACOs in the same CMS Regional Office
 - Peer Group 6: All other ACOs
- The B-CAPA Reports also include: summary charts, demographics, utilization, quality performance, actual quality score, and per-member-per-year analysis.

More details on the methodology can be found on the B-CAPA page on the NAACOS website.

Contact information

- For more information on the B-CAPA report, please contact Teresa Litton at tlitton@naacos.com
- For more information about becoming a NAACOS member, contact Brian Hammer at bhammer@naacos.com

About NAACOS

The National Association of ACOs (NAACOS) is the largest association of Medicare ACOs, representing over 3 million beneficiary lives through over 200 Medicare Shared Savings Program (MSSP) ACOs, Next Generation, Pioneer and commercial ACOs. NAACOS is an ACO member-led and member-owned non-profit organization that works on behalf of ACOs across the nation to improve the quality of Medicare delivery, population health and outcomes, and health care cost efficiency.
